As you walk around the South Loop on May 13th we want you to text us when you see or hear something you like. Every text you send will show up in real time on the Manifest website, creating a living, breathing 'pulse' of this year's festival.

Look for the "Pop Up Manifest" symbol wherever you go, and be sure to include the #Keyword anywhere in the body of your message. Each time you do, your message will 'pop up' on the Manifest website, and you'll increase your chances of winning.

Ten lucky, randomly selected, people who share their Manifest experience will win \$100. One extraordinarily lucky individual will win \$1,000! To participate, text a message to 894546. Wherever you are, whatever you are doing.

MANIFEST

2011

Dear Columbia College community and friends,

Today is Columbia's shining moment as we place a spotlight on the glorious work of our graduating students—at both the graduate and undergraduate level—all wrapped in an urban arts festival that captures our creative spirit and celebrates our community. This is also Manifest's 10th anniversary, so we also celebrate the festival's emergence as Columbia's signature event. This is one of the most impressive festivals you will find on any college campus, and it represents a major cultural presence in Chicago.

On this day, every Columbia building and the adjoining parking lots and sidewalks in and around the entire South Loop are filled with energy, art, passion and the creative output of our students. The pulsating energy coalesces in the early evening when our community comes together as one for the Great Convergence. One of the Convergence's final moments is the raising of

the star, as we remind ourselves and declare to the world that Columbia's creative energy is like the energy radiating from a star. As the star rises, we are all blinded by the incredible power of our community and wrapped in the warmth of our collective efforts. The Manifest star has risen, and we are converged as the great Columbia College community.

To our graduates: Congratulations! To our faculty: Your inspiration is palpable in your students' stunning bodies of work. To our staff: You have made a creative environment for our students. To our alumni: Welcome home. To our parents: Be proud. And to all of our friends and guests: Be amazed.

Welcome to Manifest 2011

Manifest Overview

By **Lisa Schulz**
Contributing writer

Bubbles, birds and bands are just a few of the expressions of Columbia students' unique creativity at Manifest, the college's annual urban arts end-of-the-year festival.

This is the 10th year Columbia's campus will be invaded by "culture vultures" in search of the latest and greatest art forms, which will swarm through more than 20 buildings and outdoor venues, according to Kari Sommers, assistant dean of Student Life.

The crowd of 30,000 attendees includes trolleys full of students, parents, faculty, staff, alumni, trustees and the South Loop community. To satisfy the audience's artistic cravings, graduating students will display their best work in 75 showcases and performances from each academic department.

"It's the day when the creative energy and talent of Columbia students explodes onto the sidewalks and streets of our campus in the city," said Mark Kelly, vice president of Student Affairs.

The sidewalks and parking lots throughout the South Loop will be the site of performances and creative endeavors. The festival will run up and down State Street and Wabash Avenue, including buildings on Michigan Avenue and Plymouth Court. The area stretches between East Congress Parkway and 16th Street.

Manifest officially begins with a kickoff rally on May 13 at noon at the Fujitsu Ten Stage, located at 1001 S. Wabash Ave. The pep rally will also serve as a "playful graduation ceremony" for first-year students, according to Kelly. Faculty members who primarily teach first-year students will also be honored during the kickoff. The rally will feature the "Hell Yeah!" Bubble Ceremony, in which bubbles will be individually and simultaneously blown to symbolize the coming-together of the Columbia community.

The "Hell Yeah!" liturgy that new students took part in at the fall Convocation comes to a final closing at the kickoff rally, Kelly said.

"This is the book-end because now we're saying you have successfully integrated yourself into this creative community," he said.

Then, returning on the stage will be The New Tribe, a group of first-year theater students who performed at Convocation. During the rally, the student audience will also have the opportunity to judge the "Hack Your Manifest T-shirt" contest.

Other activities will be held a couple hours prior to the kickoff. Several departments' activities will have a head-start on the day to fully accommodate interested guests. These departments' exhibitions are similar to their Industry Night events.

While the crowd browses undergraduate and graduate work from departments such as Cultural Studies to Photography, other attendees can experience every art piece Columbia has to offer, from poetry and fiction readings to dance and theater performances to film and game design creations. Each department selects graduating students' work through its own methods, ranging from competitions to prior-planned, year-long projects, according to Kelly.

"I think it is really exciting for students to be able to see and reflect on what those ahead of them are doing," Sommers said. "It gives you something to aspire [to]. It gives you something to work toward. And I think it's a positive human impulse to want to do better."

While guests explore the festival and various academic departments, the Manifest street team will roam the area dressed up as birdwatchers. Each birdwatcher will have a desk of growing grass and a typewriter. Birdwatchers will invite guests to express the best idea they've ever imagined, Sommers said. After the idea has been translated to paper, Manifest guests can walk on a labyrinth leading

to a charcoal pit where their best idea can be burned.

"That, in theory, makes room for better ideas to come to you. So what you're doing through this ritual is making space for even better aspirations," Sommers said.

These same birdwatchers will lead Manifest guests back to the Fujitsu Ten Stage at 7 p.m. for The Great Convergence. Here, the three Honorary Degree Recipients, honorary alumni, valedictorians and a student poet will arrive by horse and carriage to the celebration to be awarded. The Great Convergence will consist of an extravagant performance consisting of a DJ, operatic birds and acrobatics, Sommers said.

After the festivities, graduating students and their guests, faculty, staff and alumni are invited to the graduation party. The celebration will be held from 8 p.m. to 11 p.m. at the Hilton Hotel's International Ballroom at 720 S. Michigan Ave.

According to Jocelyn Delk, festival and events coordinator for Student Engagement, graduating students can expect wonderful music, mingling and drinks. The Hilton Hotel is within walking distance of Manifest, so it's a great location, Delk said.

"It's been an absolute pleasure planning it this year with the departments," Sommers said. "[They] are so engaged, the students are just doing mind-blowingly [and] amazing work."

As far as challenges with space, weather and money, Sommers said these issues are inevitable, but the show must go on.

"The issues won't matter," Sommers said. "They can't matter. It's about the students' work. And that is just getting better and better every year."

Convergence

By Lindsey Woods
Contributing writer

With more than 100 events to choose from, Columbia's annual Manifest Festival can be hard to navigate. In order for Manifest attendees to experience some of the creative energy generated during the year, faculty, staff and students have created a pinnacle to the festivities—the second annual Great Convergence.

The ceremony on May 13 at 7 p.m. is meant to end Manifest in a big way. Convergence includes a series of events, such as the raising of the star, paying homage to honorary Columbia graduates, a dance party and a live performing arts show, among other things.

Collaborating with Redmoon Theatre, 1463 W. Hubbard St., the Columbia community has worked tirelessly to make this year's event better than the last, according to Kari Sommers, assistant dean of Student Life. In past years, Manifest's final celebration was

a giant parade.

"The parade format was great, but presented many challenges, including weather, location and safety issues," said Sommers. "Convergence worked beautifully last year, and it's going to be even better this year."

Part of the ceremony's improvement can be attributed to better collaboration with Redmoon Theatre. According to Cody Spellman, a sophomore theater directing major who builds props and facilitates things for Convergence, the partnership between the theater and students is better this year.

"Last year [our relationship with Redmoon] wasn't necessarily negative, but there were two different sides," Spellman said. "Now, we're really working together. They're going to bring a lot of stuff we would never be able to make."

The Redmoon partnership represents the symbolic meaning of Convergence.

The ceremony is not only fun, explained Vice President of Student Affairs Mark Kelly, it is also a symbol of the community as a whole.

"It is to be a ritual and a spectacle that brings the community together and celebrates our values, with the culminating moment of convergence being the raising of the star," Kelly said.

The ceremony's schedule has yet to be announced, but last year's event featured a costumed astronaut, who ascended "up into the stars." Although the star carries many meanings, Sommers comments on its importance to the community.

"It is supposed to symbolize the heat, passion and raw creativity of the Columbia community," Sommers said.

The raising of the star is only a small part of the overall event. This year, the event starts the morning of the festival with a labyrinth manned by street

performers dressed as "Edwardian/Darwinian bird watchers," as Sommers described them. Guests navigate the labyrinth via instructional headphones and eventually come to a typewriter at which they are instructed to type out their "best idea ever." The ideas are then dropped into a symbolic fire to make room for better ideas, Sommers said.

Convergence as a whole will be a highly choreographed and designed series of events, including a mobile DJ, giant helium balloons, an opera singer and a bird chorus of costumed students with megaphones. The ceremony ends with a dance party, as it did last year, which Kelly described as a "big student rave."

Stallman said that even with all the festivities, the focus is still on the students.

"It's all for the students to come together and celebrate our hard work," he said.

Music of Manifest

By Vanessa Morton
Contributing writer

In past years, Columbia's annual Manifest Urban Arts Festival was an outlet for seniors to showcase their work. However, as the 10th anniversary approaches, the spring celebration will feature a broader array of talent from the college's community.

A new tradition will begin as this year's celebration debuts on May 13 throughout the South Loop campus. In response to more student involvement, the college took the initiative to integrate undergraduates and graduates throughout the festival's music scene.

According to Kari Sommers, assistant dean of Student Life, the college's administration found that throughout the years, undergraduates have consistently expressed a need to be more involved in Manifest.

"This year we've made a very concerted and intentional effort to find appropriate ways to involve undergrads," Sommers said. "So we've sort of mobilized a whole bunch of new teams to do things differently this year."

The event will unfold on three outdoor stages—the Fujitsu Ten Stage, NextUp Stage and Music Theater Stage—displaying the college's dedication to music and performance arts.

Any interested student will have the opportunity to become more involved with the delegation and organization with Manifest's music events. There's also a space devoted to undergraduates who are interested in performing on one of the three outdoor stages.

"We opened up the 'NextUp Stage' where you don't have to be graduating to perform [your] music," Sommers said. "It's amazing because the lot is being completely managed and programmed by an [Arts, Entertainment and Media Management] class taught by Peter Smith."

With requests for more student participation, the Student Government Association is sponsoring the

"NextUp Stage." Cassandra Norris, junior, journalism major and SGA's vice president of finance, said she thinks it's important to involve more of the student body and is excited to see change.

"Manifest is very much about the seniors, but if you don't incorporate other students, then it isn't truly a celebration of the work we do here," Norris said. "Giving other students the opportunity to perform reassures them that their work also means something."

Jocelyn Delk, festival and events coordinator, said the idea each year is to make sure Manifest is bigger and better than before.

"[Each year] we add more music to the lineup," Delk said. "[We] love putting our students on display and showcasing how talented they are. We are always trying to top ourselves because Manifest continues to mature over time."

The stages will showcase an eclectic base of music and performance, including rock, hip-hop, jazz, indie-folk and reggae sets. The line up is as follows:

Fujitsu Ten Stage (main stage)
Sponsored by: Student Programming Board
Location: Blick Festival Lot,
1001 S. Wabash Ave.

The main stage focuses on showcasing eight top-line bands, such as Secret Colours—a psychedelic rock group, Project Film—indie-pop based—and Katz Company—a pop/rock band.

"I'm really excited to be playing at Manifest this year," said Thomas Evans, junior audio arts and acoustic major and Secret Colours vocalist and guitarist. "I'm happy to see Columbia supporting their students in the way that Manifest does."

The event will also hold a special, surprise encore performance, which begins at 8:15 p.m.

NextUp Stage
Sponsored by: Student Government Association
Location: Nexus Lot, 623 S. Wabash Ave., at
the corner of Wabash and Balbo Avenues

The second stage will feature 19 singer/songwriter performances, DJs and spoken-word artists. Some of the artists include brandUn DeShay—an American hip-hop artist, Peter Oylo—a folk/rock artist, and Mz. Notra—a songstress who incorporates jazz, soul, pop, blues, and r&b.

According to Peter Smith, adjunct faculty member instructor for the Events Production Management class, NextUp is the only stage that will truly showcase undergraduate talent to the community.

"This stage is meant to be a small, intimate setting, and you won't see a full band on the stage," Smith said. "However, you will see some of the best up-and-coming talent that Columbia has to offer."

Music Theater Stage
Sponsored by: The Theater Department
Location: 1014 S. Michigan Ave. Building

The Musical Theater tent and stage is brand new to Manifest this year and will feature a mix of musical theater students. The artists will showcase snippets from various theater musicals and performances. Some of the events include Composition IV Recital and an Musical Instrument Digital Interface Concert, or MIDI, both from original compositions that graduating music composition students created.

"Music is a big deal here, and we have a large imprint locally and nationally," Sommers said. "Students are owning Manifest in a way that they never have before and it's really exciting."

ABOUT THE ARTIST

Maggie Sichter, Student Creative Director

THE IDEA

Energy. Paint. Exploration. Lines. Chaos. Rich colors. Whimsy. A concern for craft. Oh, and abstract animals. You'll find each of these elements in this year's Manifest Urban Arts Festival identity. The student artist behind Manifest 2011's design is junior art and design major Maggie Sichter.

Last year, it was Landry Miller's conceptual and literal take on the Manifest slogan, "Make it!" The year before was Rachal Duggan's fantastical and humorous illustrated characters (i.e. "Unicycle Guy"). This year, Maggie's Manifest design theme revolves around the creative process and the fruition of ideas.

Her illustrated patterned lion poster submission and savvy social media skills won Maggie the majority vote in this year's Manifest Design Competition and served as the foundation for her "sketchbook" page concept.

THE ART

Influenced by folk art, Maggie, an advocate for handmade art and goods, relates more as a "craftsperson" than a fine artist. Her adoration for lines and experimentation with the "infinite ways" she can manipulate them (using her 005 liner paintbrush and black ink as her "weapon of choice," is apparent in the Manifest 2011 identity. "There's an energy and chaos to the final designs," she said. "Paint splatters dance across an array of line work, animal figures give them form and focus, but throughout you just get the feeling that this was an idea coming to life, right there on the page," she said.

THE PROCESS

To fully develop her design concept and pieces while meeting the college's standards, Maggie's designs went through multiple revisions and edits. Relying on the "technical expertise" and guidance of the Office of Student Communications and Creative Services, Maggie found the experience "fascinating" and said it was the great part about working with a team of professionals. "I was awarded the opportunity to work on such an amazing project that I just felt it necessary to really absorb all that I could and not let the experience go to waste," she said. "At this point, every Manifest design that you'll see originated from my sketchbook or my desktop. I love that."

HACK YOUR T-SHIRT.

We know you love your Manifest T-shirt. We love it too. Still, we want you to cut it. Stitch it. Paint on it. Iron things on it. Dye it. Reconstruct it. Sew two together. See where we're going with this?

So here's how you win cash. Wear your shirt to the Manifest kick-off rally at the Blick festival Lot, 1001 S. Wabash, at noon on May 13. During the rally we'll ask anyone who tricked out their Manifest shirt to come onstage and show it off. We'll ask the crowd gathered to vote for their favorite. And by vote we mean applaud. If your shirt gets the most applause (hint: bring friends to the rally!) you win \$500.

So go get the scissors and the glue gun. You can do this.

Make it.

Columbia and Fujitsu Ten encourage you to support disaster relief efforts to help those affected by the earthquake and tsunami in Japan.

Share Your Manifest Schedule Win up to \$1,000!

There's a lot to Manifest. Music. Exhibits. Performance. Films. Weirdness. It's hard to plan for it, and harder still to experience all of it in a single day. But we can help.

We tricked out the site this year to include an app that lets you build your own unique Manifest schedule. You can build it, save it, and share it. And that's where the cash comes in.

If you build your Manifest schedule online, save it, and share it on either Facebook or Twitter, well my friend, you've just been entered to win.

We'll pick ten lucky winners at random and give them each a check for \$100, just for sharing. If you're a social media god, and have thousands of friends and followers, you may end up being our \$1,000 grand prize winner. That prize goes to the person whose shared link generates the most traffic on the Manifest website. Caveat: Only current Columbia students can win money. It's only fair, they're broke and in college.

Make Sense? Good. Make it.
