VIOLIN

EXERCISE 401

Trills

The trills in this Exercise are based not only upon the interval of the second, but also upon the intervals of the third, the fourth, and the fifth.

As indicated by the following variants, you are to practice very slowly at first, in half notes, then gradually more rapidly, in quarter notes, eighth notes, and sixteenth notes:

Apply to your practice the instructions given in Lesson 62, **TECHNIC**, on playing trills. Do not practice too long at a time, but stop for awhile if you feel any fatigue or tension in the fingers of your left hand.

ŠEVČIK

This page contains ten staves of musical notation for guitar. The notation is written in a single system, with each staff containing a line of music. The music includes various chords, scales, and fingerings, with numbers 1, 2, 3, 4, and 0 indicating specific techniques or positions. The staves are arranged vertically, and the music is written in a single system.

Sherwood Music School Courses

VIOLIN

EXERCISE 402

Left Hand Facility

Accuracy of intonation

The tonal patterns of this Exercise are simple, but they offer a wealth of opportunity for technical advancement.

The figures in each section lie within a narrow range of pitch, never exceeding the interval of a perfect fifth. The difference between one figure and another lies only in the sequence of small intervals. Your intonation must therefore be very accurate, and your first use of this Exercise should be to increase the precision of your intonation.

To accomplish this purpose, you will need to practice very slowly, using a full, slowly moving stroke of the bow for each slur. At the same time, you must concentrate your whole musical intelligence on your listening, so that your sense of correct pitch will guide your fingers.

The second purpose of this Exercise is to develop ability in more rapid stopping. It should not, however, be used for this purpose until you have solved all its problems of intonation. Obviously, there is no profit in left hand speed unless it is accompanied by left hand accuracy.

EXERCISE 403

Tremolo Bowing

Exercises on all strings

The basis of tremolo bowing is simply a short rapid wrist legato stroke. (See Lesson 10, **TECHNIC**.)

It involves no special problem except that of avoiding tension in the wrist joint of the bow arm. The varying note values in section (a) of this Exercise require you to start with slow strokes, and then gradually to increase your speed; this is the best way to develop facility in tremolo bowing. Follow the same procedure with the other sections of the Exercise, but stop for a little while if your wrist feels stiff at any time.

Be sure that your time values are exact—that is to say, for example, that a half note which is to be broken into sixteenths, gets exactly eight sixteenths, properly grouped and accented. (See Lesson 68, **GENERAL THEORY**.)

(a) In section (a) give special attention to the dynamic effects called for in combination with tremolo bowing.

Sherwood Music School Courses

VIOLIN

EXERCISE 404

Scales

*Major and melodic minor, through
two octaves, on E \flat , E, F, and F \sharp*

This Exercise presents the major and melodic minor scales through two octaves, on E \flat , E, F, and F \sharp . Observe that the scales on E \flat and on E may be played either in the Fourth Position or in the Fifth Position; so make use of both Positions in each case.

As always, practice slowly at first, to develop technical precision; then gradually increase your tempo. Use with all the scales in this Exercise the practice variants given for the scales on F \sharp , and refer to Exercises 254, 304, and 354 for other variants, also to be used.

In addition, you will find it highly profitable to make of all your scales, exercises in the control of dynamic effects and in the control of tempo, following the plan of treatment shown in Exercises 351 and 353.

(a)

4th Position

5th Position

(d)

5th Position

A musical exercise in 5th position, 4/4 time, key of D major. The exercise consists of six staves of music. The first staff begins with a treble clef, a key signature of two sharps (F# and C#), and a 4/4 time signature. The melody is written in a single voice, featuring a series of eighth and sixteenth notes. Fingering numbers (1, 2, 3, 4) are placed above the notes to indicate fingerings. The exercise includes various intervals and scales, with some notes marked with a '4' indicating a fourth finger. The second staff continues the exercise with similar notation. The third staff introduces a new sequence of notes, including some with a '3' indicating a third finger. The fourth staff continues the sequence with a '4' indicating a fourth finger. The fifth staff continues the sequence with a '2' indicating a second finger. The sixth staff concludes the exercise with a final note and a double bar line.

Variants

Four staves of musical variants in 4/4 time, key of D major. The first staff is labeled 'FR' and 'WB' and features a sequence of eighth notes with a '3' indicating a triplet. The second staff is labeled 'PT' and 'WB' and features a sequence of eighth notes with a '3' indicating a triplet. The third staff continues the sequence with a '3' indicating a triplet. The fourth staff is labeled 'Spiccato' and features a sequence of eighth notes with a '3' indicating a triplet. The exercise concludes with a final note and a double bar line.

Sherwood Music School Courses

VIOLIN

EXERCISE 405

Rapid Stopping

With slurred bowing

This Exercise is based on arpeggios and broken chords. Correctness of pitch should be uppermost in your mind, through all your practice of it.

Reach with your fourth finger for the last note, A, in section (b), letting your hand remain, if possible, in the Fifth Position. (See Lesson 45, TECHNIC.) This tone does not lie within the limits of the Fifth Position, but the distance to be reached is comparatively small, and it is probable that you will be able to make the necessary Extension without moving your first and third fingers out of the locations assumed in the preceding group of tones.

Make all string crossings smoothly, guarding especially against placing any undue emphasis on the first tone played on the string to which you cross.

EXERCISE 406

Shifting

From First Position to Second, from Second to Third, etc.

Beginning with the First Position on each string, the figures in this Exercise move diatonically upward through successive Positions—from First to Second, from Second to Third, and so on. Review Lesson 31, **TECHNIC**, for guidance in making the necessary shifts.

As you will discover, each finger of the left hand is called into use in making shifts, both upward and downward. Careful and constant practice of this Exercise will accordingly be sure to improve your facility in the art of shifting. Practice each section in all keys.

Your practice must be painstakingly conscientious, however, to produce the desired results — and this means that you must listen keenly all the while, so as to correct any inaccuracies of pitch. Let your sense of hearing guide your fingers until finally they move from one Position to another with flawless precision. Simplify your bowing in your first practice, using one stroke to each beat.

EXERCISE 407

Rapid Stopping

*First, Second, Third, Fourth and Fifth Positions,
with slurred bowing*

This Exercise ranges through the First, Second, Third, Fourth and Fifth Positions. For a review of the instructions given on the use of these Positions, see the **TECHNIC** divisions of Lessons 12, 28, 35, and 45.

Refer also to Lesson 31, **TECHNIC**, for instructions on shifting, inasmuch as this Exercise requires a number of changes of Position.

Test the correctness of your pitch once in a while by sounding an open string. You will always find this device helpful in working for accuracy of intonation; and almost every Exercise, Study, or Composition, offers you the chance to do this at various points.

Begin your practice slowly, so that you may listen carefully to the pitch and quality of each tone produced. If the fingers of your left hand are guided to the correct fingerboard locations in the beginning, they will not be likely to go astray later, unless you play carelessly, without listening to what you are doing. Good habits can be made to work for you just as strongly as bad habits work against you.

Play only one or two tones to each stroke of the bow during your slow practice, then increase the number of tones to each stroke as you increase the speed of your playing. Repeat each part of this Exercise several times before going on to the next. Practice occasionally without the bow, for firmness of fingering.

VIOLIN

EXERCISE 408

Harmonics

Natural and artificial

The theory of harmonics is explained in Lesson 59, GENERAL THEORY. The technical means for producing natural and artificial harmonics on the violin are explained in Lesson 73, TECHNIC. Read both these Lessons carefully, so that you may take up this Exercise with a full knowledge of what you are to do.

Section (a) deals only with natural harmonics on each of the four strings, working upward and downward from the middle of the string.

In section (b), natural harmonics are formed into major scales, with a few artificial harmonics inserted where needed for this purpose.

A chromatic scale is formed in section (c), chiefly from artificial harmonics based on the interval of the fourth, with a few natural harmonics inserted where necessary.

Your sense of finger accuracy is your only guide to producing natural harmonics at points which lie between the middle of the string and the bridge.

EXERCISE 451

Shifting

From First Position to Third, from Third to Fifth, etc.

Refer to Lesson 31, **TECHNIC**, for instructions on shifting from one Position to another, as required in this Exercise.

Generally speaking, the patterns presented here are designed to give you practice in shifting from an odd-number Position to another odd-number Position, as from First to Third; or from an even-number Position to another even-number Position, as from Second to Fourth. Use simplified bowing in your first practice, with one stroke to a beat. Practice each section in all keys.

You will find it interesting to observe how the composer has ingeniously devised the material, so that shifts must be made with each finger, both upward and downward.

EXERCISE 452

Vibrato

Exercises on all strings

It is very important that you study carefully the **TECHNIC** division of Lesson 67 before taking up this Exercise. In that Lesson, you will find full instructions on producing the vibrato, and it is essential that you master these in detail before attempting its use.

Ordinary musical notation has been varied in this Exercise for a special purpose. Look carefully at the first measure and you will see that the first and third note-heads are on a level with one another, but that the second is a little higher and the fourth a little lower than the others.

All represent the tone D, but the first and third notes are intended to suggest the actual, accurate pitch of D, while the second is intended to suggest a pitch very slightly higher and the fourth a pitch very slightly lower, the variations in pitch being produced by the use of the vibrato.

So we think of the sequence of the vibrato as being: 1. On pitch. 2. Just a little higher. 3. On pitch again. 4. Just a little lower—and so on, over and over again.

In practicing this Exercise, you are to go through the four steps of this sequence very slowly at first, each step occupying the time value of a quarter note in slow tempo. When you can do this easily and evenly, take the sequence faster, giving the time value of an eighth note to each step. Later, use the time value of sixteenths, then thirty-seconds, and so on, until your vibrato begins to take on the shimmering effect desired. Do not increase the speed of the sequence, however, except as you can do so with perfect evenness.

Keep in mind at all times the fact that the fluctuations of pitch produced by the vibrato are intended to be very small.

EXERCISE 453

Double Stopping

In taking up this Exercise in double stopping, it is well to call to mind again the fact that you need exert no extra pressure on your bow simply because you are playing on two strings at once. Your bowing problem, rather, is to divide equally the weight and pressure of the bow between the two strings. Review, in this connection, the instructions given in Lesson 27, **TECHNIC**.

The practice of double stopping is not only valuable technically, but also does much to improve the sense of pitch. Slight inaccuracies which may pass unnoticed in ordinary melodic playing become obvious when tones are sounded against one another. Practice this Exercise very slowly at first, so that you can mentally weigh each pair of tones for any deficiencies in pitch. Use a separate stroke for each beat in your first practice. Practice each section in all keys.

(a) ŠEVČÍK

(b)

(c)

2nd Pos.

3rd Pos.

This section contains two staves of music in 2/4 time. The first staff is labeled '2nd Pos.' and the second staff is labeled '3rd Pos.'. Both staves feature a series of eighth-note patterns with various fingerings indicated by numbers 0 through 4. The first staff has a key signature of one flat (Bb) and a common time signature of 2/4. The second staff has a key signature of one flat (Bb) and a common time signature of 2/4. The music is written in a single system with two staves.

(d)

This section contains two staves of music in 2/4 time. The first staff is labeled '2nd Pos.' and the second staff is labeled '3rd Pos.'. Both staves feature a series of eighth-note patterns with various fingerings indicated by numbers 0 through 4. The first staff has a key signature of one flat (Bb) and a common time signature of 2/4. The second staff has a key signature of one flat (Bb) and a common time signature of 2/4. The music is written in a single system with two staves.

(e)

Exercise (e) is in 4/4 time and consists of three staves. The first staff contains measures 1-4, the second staff contains measures 5-8, and the third staff contains measures 9-12. The music features a variety of note values, including eighth and sixteenth notes, and rests. Fingerings are indicated by numbers 0-4 above the notes. Slurs are used to group notes across measures. The piece concludes with a double bar line at the end of the third staff.

(f)

Exercise (f) is in 6/8 time and consists of five staves. The first staff contains measures 1-4, the second staff contains measures 5-8, the third staff contains measures 9-12, the fourth staff contains measures 13-16, and the fifth staff contains measures 17-20. The music features a variety of note values, including eighth and sixteenth notes, and rests. Fingerings are indicated by numbers 0-4 above the notes. Slurs are used to group notes across measures. The piece concludes with a double bar line at the end of the fifth staff.

(g)

Exercise (g) is in 3/4 time and consists of four staves. The first staff contains measures 1-4, the second staff contains measures 5-8, the third staff contains measures 9-12, and the fourth staff contains measures 13-16. The music features a variety of note values, including eighth and sixteenth notes, and rests. Fingerings are indicated by numbers 0-4 above the notes. Slurs are used to group notes across measures. The piece concludes with a double bar line at the end of the fourth staff.

(h)

Exercise (h) is a three-staff musical piece in C major, 4/4 time. It features a continuous eighth-note melody in the upper voice, with fingerings 1, 2, 1, 2, 1, 2, 1, 2, 1, 2, 1, 2, 1, 2, 1, 2, 1, 2. The lower voice provides a harmonic accompaniment with chords and single notes, including fingerings 0, 2, 2, 2, 2, 2, 2, 2, 2, 2, 2, 2, 2, 2, 2, 2, 2, 2. The piece concludes with a final chord.

(i)

Exercise (i) is a three-staff musical piece in C major, 4/4 time. It features a continuous eighth-note melody in the upper voice, with fingerings 4, 4, 4, 4, 4, 4, 4, 4, 4, 4, 4, 4, 4, 4, 4, 4, 4, 4. The lower voice provides a harmonic accompaniment with chords and single notes, including fingerings 1, 1, 1, 1, 1, 1, 1, 1, 1, 1, 1, 1, 1, 1, 1, 1, 1, 1. The piece concludes with a final chord.

(j)

Exercise (j) is a three-staff musical piece in C major, 4/4 time. It features a continuous eighth-note melody in the upper voice, with fingerings 4, 4, 4, 4, 4, 4, 4, 4, 4, 4, 4, 4, 4, 4, 4, 4, 4, 4. The lower voice provides a harmonic accompaniment with chords and single notes, including fingerings 0, 0, 0, 0, 0, 0, 0, 0, 0, 0, 0, 0, 0, 0, 0, 0, 0, 0. The piece concludes with a final chord.

VIOLIN

EXERCISE 454

Left Hand Pizzicato

Exercises with all fingers

The technical procedure to be followed in playing pizzicato with the fingers of the left hand is explained in Lesson 73. Read the **TECHNIC** section of that Lesson as a preparation for this Exercise.

Each of the bowed tones should be played with a short, light, up-bow stroke, to produce a dainty effect, comparable to the effect of the plucked tones which are interspersed between the bowed tones.

Inasmuch as the fourth finger is by nature not so strong as the other fingers, it is necessary to exert a little extra force in using this finger for pizzicato. In plucking the strings, each finger should simply draw inward toward the palm of the hand. Practice *piano* at first, then *mezzo piano*, then *mezzo forte*, and finally *forte*. Keep your left hand as relaxed as possible for even and easy tone production.

(a)

(b)

DAVID

This musical score, titled 'DAVID', is written in G major (one sharp) and 6/8 time. It consists of ten staves of music, each featuring a complex, rhythmic melody. The notation includes various note values (eighth, sixteenth, and thirty-second notes), rests, and dynamic markings such as accents (^) and slurs. The piece is characterized by its intricate rhythmic patterns and the frequent use of plus signs (+) below the notes, which may indicate fingerings or specific performance techniques. The score begins with a treble clef and a key signature of one sharp (F#). The first staff includes a common time signature (C) and a series of eighth notes. The subsequent staves continue the melodic development with increasing complexity, including sixteenth and thirty-second notes. The piece concludes with a final cadence on the tenth staff.

VIOLIN

EXERCISE 455

Ornaments

Appoggiatura, acciaccatura, slide, turn, mordent, trill

Musical ornaments are effective only if they are fitted with precision and certainty into the rhythmic pattern of the material in which we find them. There is nothing very difficult, technically, about the ornaments presented in this Exercise, but your practice of them will help you to play more smoothly the ornaments which you find in your Studies and Compositions.

In most of the sections, this Exercise shows not only the ordinary musical notation for the various ornaments, but also exactly what notes should be played. To understand clearly the versions which are written out in full, read the GENERAL THEORY sections of the following Lessons: Lesson 32, on the appoggiatura and the acciaccatura; Lesson 44, on the turn; Lesson 49, on the trill; Lesson 62, on the mordent; and Lesson 68, on the afterbeat.

EXERCISE 456

Double Stopping

When you play double stops, as in this Exercise, you must take particular care to see that your bow makes contact with both strings evenly.

Suppose, for example, that you have laid your bow upon the G and D strings so that its weight is equally divided between the two strings, and then start to draw it down-bow. If, in the course of the stroke, the frog of the bow is pressed downward, you will throw too much weight on the D string, and too little on the G string. If the frog of the bow wavers upward, you will put too much weight on the G string.

Before practicing this Exercise, bow the open strings of the violin in pairs, until you are sure that you can draw your bow in a perfectly straight line. As a further preparation, review the instructions which are given on double stopping in Lesson 27, **TECHNIC**. Simplify your bowing at first, with a separate stroke for each beat. Practice each section in all keys.

ŠEVČÍK

(a)

(b)

(c)

Exercise (c) consists of four staves of music in C major, 4/4 time. The first staff begins with a treble clef and a common time signature. The melody is composed of eighth and sixteenth notes, often beamed together. Fingering numbers (1, 2, 0) are placed below the notes. The second staff continues the melody with similar rhythmic patterns and fingering. The third staff introduces some triplet markings (indicated by a '3' over a group of notes). The fourth staff concludes the exercise with a double bar line.

(d)

Exercise (d) consists of three staves of music in C major, 4/4 time. The first staff features a treble clef and a common time signature. The melody is primarily composed of eighth notes, with some triplet markings (indicated by a '3' over a group of notes). Fingering numbers (1, 2, 0) are placed below the notes. The second staff continues the melody with similar rhythmic patterns and fingering. The third staff concludes the exercise with a double bar line.

(e)

Exercise (e) consists of four staves of music in C major, 4/4 time. The first staff begins with a treble clef and a common time signature. The melody is composed of eighth and sixteenth notes, often beamed together. Fingering numbers (1, 2, 0) are placed below the notes. The second staff continues the melody with similar rhythmic patterns and fingering. The third staff introduces some triplet markings (indicated by a '3' over a group of notes). The fourth staff concludes the exercise with a double bar line.

The musical score for 'The Rose Tree' is presented in four staves. The first staff begins with a treble clef, a common time signature (C), and a key signature of one flat (B-flat). The melody is written in a simple, folk-like style. The second staff continues the melody, maintaining the same key and time signature. The third and fourth staves provide a harmonic accompaniment, featuring a bass line that moves in parallel motion with the melody. The score concludes with a double bar line at the end of the fourth staff.

The musical score for 'The Rose Tree' is presented in four staves. The first staff begins with a treble clef, a common time signature (C), and a key signature of one sharp (F#). The melody is written in a single line. The second staff continues the melody. The third staff continues the melody. The fourth staff continues the melody. The score is written in a single system.

The image displays three staves of musical notation for a guitar exercise in C major. The notation includes various chords and fingerings, with some measures containing multiple chords. The first staff begins with a treble clef, a common time signature 'C', and a key signature of one sharp (F#). The first measure contains a C major triad (C-E-G) with a '0' above it, indicating an open string. Subsequent measures contain chords with fingerings '1 2' and '1 2'. The second staff continues the sequence with chords and fingerings '1 2', '1 2', and '2 3'. The third staff concludes the exercise with chords and fingerings '2 3', '2 3', and '2 3'. The notation is clear and legible, with a focus on chord voicings and fingerings.

EXERCISE 457

Octaves

Broken and solid

In the playing of octaves, the left hand must adapt itself to the need for smooth, continuous shifting from one Position to another. Begin your practice of this Exercise very slowly, so that you can listen intently to each tone, and place each finger accurately, your fingers always being guided by your sense of pitch. The ability to play accurately in a more rapid tempo will come to you easily enough, if you follow the simple rule of making your fingers obey your ears.

In addition to practicing these broken octaves as written, play them as solid octaves, thus:

Also vary your bowing, using sometimes two, sometimes four, sometimes eight, and sometimes sixteen notes to the slur.

DANCLA

Allegro
(G and D)

KAYSER
(G-D)

The musical score consists of ten staves of music, primarily in treble clef with a common time signature. The key signature is one sharp (F#), indicating D major or D minor. The piece begins with a tempo marking of 'Allegro' and a dynamic of 'mf'. The notation includes a variety of rhythmic patterns, such as eighth and sixteenth notes, often beamed together. Chordal indications in parentheses above the staff, such as (D-A), (G-D), and (A-E), are present throughout. Dynamics range from 'p' (piano) to 'ff' (fortissimo), with 'cresc.' (crescendo) and 'dim.' (diminuendo) markings used to indicate volume changes. Fingerings are indicated by numbers 1, 2, 3, and 4. The score concludes with a 'poco a poco rall.' (rhythmically slowing down) instruction, followed by a final 'a tempo' marking and a 'ff' dynamic. The piece ends with a double bar line and a final chord.

EXERCISE 458

Survey of Scales

*Major and Melodic Minor, within
the first five Positions*

For your convenience in review and in further practice of scales, the major and melodic minor scales are presented in this Exercise, through the two octaves which lie within the limits of the first five Positions.

Apply in your practice the numerous variants given; this will increase not only your facility in playing scales, but also your mastery of the bow.

Variants applicable to all major and melodic minor scales:

The image displays ten staves of musical notation, each representing a different variant or technique for scales. The notation is in treble clef and includes various rhythmic values, accidentals, and articulation marks.

- Staff 1: A scale with a triplet of eighth notes and a slur over the final six notes.
- Staff 2: A scale with a slur over the first six notes and a triplet of eighth notes at the end.
- Staff 3: A scale with a triplet of eighth notes at the end.
- Staff 4: A scale with articulation marks (up-bow or breath marks) above the notes. Labels "FR", "WB", "PT", and "WB" are placed above the notes.
- Staff 5: A scale with a slur over the first six notes.
- Staff 6: A scale with a slur over the first six notes.
- Staff 7: A scale with a slur over the first six notes.
- Staff 8: A scale with articulation marks (up-bow or breath marks) above the notes. Labels "WB", "PT", "WB", and "FR" are placed above the notes.
- Staff 9: A scale with a slur over the first six notes and a triplet of eighth notes at the end. The word "Ricochet" is written above the first note, and "and" and "also" are written between the notes.
- Staff 10: A scale with a slur over the first six notes. The word "Spiccato" is written above the first note.
